*"CARETAKERS Or EDGEWOOD CEMETERY"*

*Friends of Edgewood*

Looking for a job with:

- no pay
- bad hours
- and probably dirty work?

**Have I got a deal for you!**

Edgewood, like all cemeteries, needs helpers to keep the grounds in respectable shape. Tasks vary depending on the season and the current project. Skill in all types of yard work is probably the most common need.

Volunteers come in all sizes and ages. It is your effort and labor that counts. Volunteer time can be a one-time project or an on-going effort. This is an excellent community service project for service clubs or church groups.

We have projects that will require more physical labor.

Those projects cover many areas, for example:

- installing missing or replacement military monuments
- repairing the boundary fence
- repairing and maintaining the memorial brick walkway
- refinishing the gazebo
- installing section marking signs
- trimming and pruning plantings throughout the cemetery
- assisting the mowing teams with raking and sweeping

We also have projects that require less physical labor but a high degree of attention-to-detail. We are updating and creating new maps of the cemetery to assist families in finding their relatives. This requires taking a printed list and physically walking around the cemetery to check and update existing information.

You do not have to be an expert in any of these tasks. Some projects just need people to become involved. Most of the major projects will have a cemetery supervisor on location to direct and organize the work.

As you see, there is work to be done. If you would like to assist us in maintaining this historic area, we would welcome you to our team.

Please contact any board member by phone or mail to let us know where you think you can help.

Thank You.
